**Department**  | Arc@UNSW Limited  
---|---
**Location**  | Both Kensington & CoFa Campus  
**Supervisor/Manager**  | All Direct Manager in accordance with the SWP Guidelines  
**Author**  | HR & OD Manager  
**Effective Date**  | 8.11.2012  
**Review Date**  | Every two years or as required  
**Associated Documents/SWP**  | NA  
**Associated Risk Assessment**  | NA  

### Safe Work Procedures and Basic Description

**Title**  | SWP – General Office Equipment  
---|---
**Description**  | Safe Working Procedures to ensure the safety of Arc representatives and students for the purpose of using the following equipment:  
**Type**  | Process / Task /Equipment  

### Hazards associated with equipment/machinery/technique/process
- Do not attempt to cut material beyond the capacity of the machine.  
- Never attempt to cut rod, strap or wire with this machine.  
- Use correct lifting procedures when handling large sheets of material.  
- Take care during the initial feeding of the workpiece into the machine.  
- The workpiece should always be held sufficiently far back from the edge being fed into the guillotine.  
- Ensure fingers and limbs are clear before actuating the guillotine.  
- Hold material firmly to prevent inaccurate cutting due to creep.  

### Requirements – Before Starting
- Do not use this equipment unless Direct Manager has instructed you in its safe use and operation;  
- Read SWP and ensure you are briefed by an Arc representative with the appropriate authorization to provide such training.  
- Ensure you have carefully read this SWP.  
- Ensure that you have the appropriate training and/or supervision for the task.  
- Prepare the area, materials, person required before using the guillotine.  
- Ask any questions you may have before operating any machinery.
**Procedure - Guillotine**

1. Ensure fixed guards are in place to prevent hands or other parts of the body from entering the trapping space.
2. Guards or safety devices must never be removed or adjusted, except by an authorized person for maintenance purposes.
3. Working parts should be well lubricated and free of rust and dirt.
4. The area around the machine must be adequately lit and kept free of materials, which might cause slips or trips.
5. Be aware of other personnel in the immediate vicinity and ensure the area is clear before using equipment.
6. Familiarise yourself with and check all machine operations and controls.
7. Ensure cutting table is clear of scrap and tools.
8. Faulty equipment must not be used. Immediately report suspect machinery.

**Tools and Equipment**

- First Aid

**Emergency Safety Equipment**

<td>• Ensure guard is in place and not damaged in any way. If damaged do not use&lt;br&gt;• Keep hands and figures clear of moving sharp parts.</td>
<td>Pinch Points&lt;br&gt;Sharp Edges&lt;br&gt;Moving Parts/Manual Handling</td>
<td>• Ensure blades are guarded. Do not operate if guards are broken or damaged.&lt;br&gt;• Do not operate with loose clothing or jewellery. People with long hair must tie it back.&lt;br&gt;• Appropriate footwear must be worn.&lt;br&gt;• Gloves must NOT be worn when using the guillotine.&lt;br&gt;• Switch power off after use.&lt;br&gt;• Keep aisle and work area clean.</td>
</tr>
</tbody>
</table>
Emergency Procedure (how to deal with fires, spills or hazardous substances)
All electrical switches must be within easy reach to all operators to shut down in case of an emergency. All emergencies call 56666. Display emergency procedures in the area.

Clean up procedures for task (include all routine steps including set up and close down)
Ensure areas are kept clean and tidy

Waste Disposal Procedures
1. Remove all off cuts and place them in either in the storage rack or waste bin.
2. Leave the work area in a safe, clean and tidy state.

Resources (including plant, chemicals, PPE, and equipment etc)

List legislation, standards and codes of practice used in development of the SWP

Approval, training and review
